Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7, 9, and 11-19, are rejected under 35 U.S.C. 102(b) as being anticipated by Wellner (EP 0697793 A2) as set forth in the previous Office Action 8/17/06.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Art Unit: 2621

5. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Wellner (EP 0697793 A2) in view of Official Notice as set forth in the previous Office Action mailed out 1/24/06.

Response to Arguments

6. Applicant's arguments filed 11/13/06 have been fully considered but they are not persuasive.

Regarding the Applicant's argument in the cited reference of Wellner fails to disclose the claimed feature of the sensor being contained in the video player body and being also positioned in the body to allow sensing to be performed, Examiner disagrees. It is noted that one of ordinary skill in the art would readily recognize that the terms "contained in" can be defined as holding together. Therefore, the claimed feature of having the sensor being contained in the video player argued by Applicant is present in Wellner, since, the scanner 11 in Wellner is held together with the player by the cable 19. It is further to be noted that the user can always positioned the scanner 11 of the Wellner's player 15 at any desired time.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2621

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
